This 192-mile project would permanently scar the land by clear-cutting 40 new miles of right-of-way in Coos County, and building more than 1100 new steel lattice or monopole towers up to 160 feet high on existing right of way through 132 miles of New Hampshire. NH depends on tourism, the mountain views, the alpine habitat, and all the beauty for a thriving tourism business.

Bury the lines.

I have been on numerous hiking trips, stayed at inns, ate at restaurants, bought gas, etc. in NH.

I support the 31 out of 32 communities along the project's proposed path that have voted to oppose the project.
